

ONLINE SAFETY

TEACH YOUR KIDS TO CONNECT SAFELY ONLINE

- Only share information with people they know in real life.
- Be nice and positive online and treat people the way they would like to be treated.
- Be smart about pictures. Share pics, even wacky ones, but only share pictures that any and every one can see.
- Chat carefully. Be careful about the information kids share online.
- Children should never agree to meet a stranger. If someone asks to meet your child, kids need to tell their parents or guardian right away. Some people are not who they say they are!
- Monitor children's use of technology, including cell phones, social media sites, and messaging.
- Review contact lists on phones and ask questions about people you don't recognize.
- Think of technology as another "environment" to explore with your children.
- Keep electronics in public areas especially at night.
