

Summer Madness

2 MONTHS OF RECESS!

Racking your brain to figure out what to do with the kids for summer recess? Create family connections & memories without spending a lot of money. All you need is a camera to capture the moments, a photo album, and a little imagination.

Ideas that kids will enjoy, no matter what age:

Backyard field day:

Make it a day to keep the family active. Simon says, freeze tag, kick ball, volleyball, tug of war, and red rover.

Splish Splash:

Kids love to go swimming. Plan a day out with them. If you need to work, take your work with you. If it's splashing around in the backyard, turn the sprinkler on with a few water toys and let them have a good time.

Movie Mania:

Make a list of movies you would like to watch as a family. Make some popcorn or a movie-themed snack, sit back and enjoy.

Get to know me game:

Create flash cards with a list of favorite things, foods, movies, TV shows, animal, actors, cartoon characters, color, flower, clothing items, etc. Each person gets five cards to share their favorites and why.

You can have board game night, take a hike with your child, even get lost in a museum, and much more.
