

**If you can't see them, you can't save them**

### Kids and Cars: How To Prevent Tragedy

- Never leave your car keys where children can get them.
- Keep car doors and trunks locked at all times, even in the garage or driveway.
- Teach children not to play in or around cars.
- Never leave your child unattended in a car, even if the windows are down and a wind shield shade is in place or even just to run a quick errand.
- Make sure all children leave the vehicle when you reach your destination.
- Don't overlook sleeping infants!
- Make sure that the seat belt and seat surface are not too hot before buckling up your child.
- When you and your children exit the car, place a windshield shade in front and back windows to help cut down on the heat.
- Make sure that kids' arms, legs, fingers, and toes are safely inside before closing doors.
- Keep the rear fold-down seats closed to prevent kids from getting into the trunk from inside the car.
- Contact your auto dealership about getting your vehicle retrofitted with a trunk release mechanism.
- Be wary of child-resistant locks—make sure they function.
- If your child does get locked inside a car, get him or her out as soon as possible. If you can't get him or her out yourself, call 911 or your local emergency number immediately.
